Verify the Apprentice has entered the correct month and year and that your

company is listed as the contractor. If any of those are incorrect, the submission will to be rejected which is explained on the last page. For example, the contractor is

missing for this apprentice so it should be rejected. If correct, move on to the next step to verify hours.

603- Industrial Lighting Service Installation 604- Trouble Shooting 605- Motor Installation & Control							8						4				15 2

IMPORTANT – Hours should be verified for accuracy. The easiest way to do this is by obtaining a payroll report. There are also a few "red flags" that often require a little more investigation including: working major holidays, working 7 days per week, and working more than 8-10 hours per day. While it is known working those hours can, and do occur, it is something we will likely flag in the office and request payroll records and/or verification.

If the month, year, and contractor from above and the hours listed below are correct, click **Submit**. This submission is your acknowledgement that you have verified the information and it is accurate. azbuilders.org 602-274-8222

If the month, year, or contractor from above or the hours entered below are incorrect, the submission should be rejected by clicking **Reject** and add a note of explanation as to why the hours were rejected. The Apprentice will receive a notice will need to correct the issue and resubmit.
